3 Tips to Master the Mall

The Mall of America trend specialist on how to have a productive, stress-free and budget-friendly shopping trip

1. Plan your visit
"Check out your mall's website—most list exclusive deals. Then aim to head there midweek, when lines are shorter and salespeople aren't too busy to tell you about in-store-only sales. Just ask!"

2. Make try-ons easier
"To avoid returns, it's important to try things on. Wear an outfit that's easy to take on and off, like a dress and slip-on sneakers. Also, visit the stores you love and have the most success with first, before you run out of steam."

3. Track your spending
"Give yourself reality checks so you stay within your means. Each time you buy something, deduct that amount from your set budget using a notes app or budgeting app like Level Money [free; Apple App Store and Google Play]."
